Hiding One More

1. Hide various quantities of counters under tubs.
2. Lift one tub to see counters under it.
3. Lower tub again.
4. Students write the number of counters under that tub.
5. Lift same tub and place one more counter under it.
6. Students predict how many counters they think are under the tub now.
7. Students write that number.
8. Lift the same tub once more.
9. Students check the number of counters.
10. Continue with other tubs.

Things You Need:
- Counters
- 3-6 Small tubs or cups
- White board or paper and pencil
